SUMMARY

Web designer and developer with 6+ years of experience, mainly front-end. I design and build fast, mobile-friendly websites and online shops on WordPress and Shopify, and I own the work from design in Figma to live launch. Today I am the only web professional at Dynamic Solution, so I am used to working independently and delivering client sites that stay live. Looking for an on-site role in Lahore where I can grow into a senior position.

EXPERIENCE

Web Designer & Developer, Dynamic Solution 2025 – Present

- Sole web professional in the company: handle all web design and development, mainly front-end.
- Built several client websites from scratch; all are live.
- Redesigned existing sites, including product pages and home/landing pages.
- Maintain client sites, fix bugs and layout issues, and deploy updates with GitHub and Vercel (Supabase/SQL where needed).

Junior Web Developer, Mohtesham Solutions Jun 2021 – 2025

- Worked in a small team, owning assigned sections of every client website.
- Focused on WordPress (some Shopify) online stores: product data, prices, titles, descriptions and categories.
- Built web pages and complete websites for client projects.

Assistant Lecturer, Defence Welfare Society Technical Vocational Training Centre Jun 2020 – Jun 2021

- Taught a one-year web development class.

PROJECTS

Sidewing (personal project): a tool I built that creates, edits and deploys client websites, with an easy editor for clients and a one-click handover to the client's own hosting, so no passwords are shared. Node.js, Supabase, Vercel. Built with AI assistance. · sidewing.vercel.app

Blindspot Leads (personal project): a lead-finder tool for freelancers and agencies that sell web design and marketing. It helps find local businesses with no website or a weak one, so they can be approached. Built with AI assistance. · bsleads.vercel.app

- **Sheeza Organics**: WordPress online store, built from scratch · sheezaorganics.com
- **Use OEM**: Shopify store redesign · useoem.com
- **Used Auto Airbags**: Shopify redesign and email marketing · usedautoairbags.com
- **Onyx Limo**: ongoing WordPress improvements · onyxlimo.ca
- **Shield Guard Insurance**: custom WordPress theme · also built my own WordPress plugin

SKILLS

Platforms: WordPress, Elementor, Shopify **Front-end:** HTML, CSS, Bootstrap, responsive design
Design: Figma, UI/UX basics **Other:** SQL, Supabase, GitHub, Vercel, SEO basics, AI tools for faster work
